

70 artists

from the Mirca Art Group presents
Mirca Tour For Human Rights (MTHR)

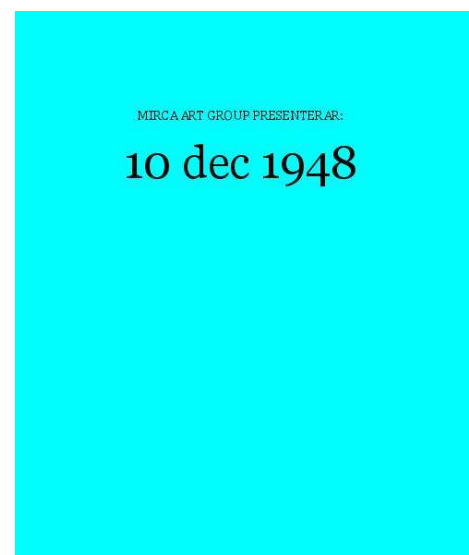

MTHR is a traveling art exhibition created by an International coalition of artists in support of the Universal Declaration Of Human Rights.

We are artists without borders who see Human rights as a Universal Right for all Human Beings.

MTHR is a completely volunteer project and all artworks have been generously donated to this international project meant to bring attention to the simple yet monumental concept of basic Human rights for all. This is a not for profit art exhibition/project. This is a gift from the individual artists of Mirca Art Group to communities around the world.

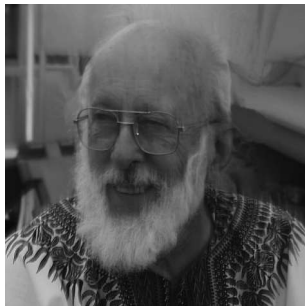

If your community is interested in becoming a hosting destination for this touring exhibition and sponsoring a segment of this peaceful project on human rights, please contact us at tour@mirca-art.com
